

April 21, 1965

STAT

Dear Joe:

STAT

Subject: Contract [redacted]
Reference our Letter
dated 17 March 1965 [redacted]

The above referenced letter contemplated a period of six months support in assisting in the evaluation of the enlarger. During a meeting [redacted] on 20 April it became clear that a four month period was more realistic. Therefore, we can modify the proposal contained in the referenced letter as indicated in Attachments "A" and "B". This indicates an additional funding requirement [redacted] which we believe to be insignificant in the overall accuracy of the estimate. We therefore suggest a Contract Amendment to cover installation
